Air Force School for Paratroops Opens in Alberta

Students at Canada's air force para-rescue school at Henry House, Jasper, Alberta, find that jumping is only a small part of their 18-weeks' training course. The squad, pictured above, is practising whitewater crossing of a stretcher case, over one of Alberta's roaring Rocky Mountain rivers.

"A Vacation Never to Be Forgotten"

MORINVILLE. — Here we are, back again from a wonderful vacation at Camp Assisi nestled in the mountains with Lake Edith on one side and Lake Annette on the other.

Upon arriving we were graciously greeted by our host, Mr. Bull, along with Father Briere, Father Kinlin, Johnny La Fortune, Mr. and Mrs. Gollase, dean of men and women, and "Faddy," the camp's cupid, who had arrived earlier by car.

A delicious turkey supper was then served. After a long day of travelling it really was appreciated. The meal over we were given a resume on the activities of the days to follow. Our first day ended with a sing-song and dancing which made it easier for the boys and girls to get acquainted. Then it was time for lights out, we were quite tired, but very happy with our new friends and such beautiful surroundings.

The daily schedule was as follows: Rise at 7 followed by mass and communion, the perfect way to begin a day. Mass over, it was then time for breakfast. 9:30 to 11:15 we had lectures and discussions. Rev. Father P. Kinlin, from Regina, spoke on the "Mystical Body of Christ." This made us realize our responsibilities and duties as children of God.

Johnny La Fortune, camp director, opened our eyes to the true spirit and importance of a C. Y. organization. He stressed the fact that we should start by loving our neighbors and helping them in every way we can. 11:15 to 1:30, swimming, lunch and rest. 1:30 to 3:15, our chaplain, Rev. Father Briere spoke on public speaking. This is certainly a need in this troubled world if a person wants to feel free to express his or her ideas on problem of today.

Mr. J. Gilles, a known writer, gave us the facts on how to start a script or on whatever we were most interested in writing.

3:15 to 4:00—We had saltatio dancing under the instruction of Audrey Lawrence and Johnny La Fortune.

4:00 to 6:00—We were at liberty to either go swimming, boating, ball games, horse shoe, etc. It's

really amazing how a complete group of strangers can get to be real friends in such a short period of time.

6:00 to 7:30—Supper, and I'd like to mention at this point that two boys and girls were appointed each day to serve the meals. This made it seem more like a big happy family. Community singing was next followed by a touching spiritual talk by our chaplain, Father Briere. This was concluded with the rosary.

8:00 to 10:30—There was planned entertainment by the social committee.

The next day it did not look forward to as it brought an end to our delightful vacation. I'll never forget this wonderful spot, a place, I'm sure, God created for just this sort of camp. In order that all the boys and girls can get to really know Him, and help, through this organization, the best fortunate.

Boys and girls, if you have your vacation from July 30th to August 6th, take advantage of the chances being offered. I assure you it will be a holiday you'll never forget.

—Fellow Camper.

BUSBY NEWS NOTES

Two showers of interest were held here recently for Mr. and Mrs. F. Chubb, held in the United church, the other for Miss S. Green held at the home of Mrs. S. Shuller.

The Bereasford family left Saturday for a two-week vacation at Alberta Beach.

Miss M. Birkins is the relieving clerk in the Co-op store while the manager is away on holidays.

A very pretty wedding was held in the Busby Lutheran church Monday, July 17, when Miss Janke of Alameda became the bride of Mr. H. Pipke of Busby.

Mr. and Mrs. Elliott spent two days at the Calgary stampede. The regular meeting of the Ladies' Aid was held at the home of Mrs. A. Weidrick, plans being made for a picnic supper to be held in the school.

A good time was had by all who attended the barn dance at the farm of S. Anderson, sponsored by the Farmers' Union.

ST. ALBERT NEWS BRIEFS

ST. ALBERT. — The Cubs had a two-day camp at the Sandbars last week-end under the supervision of Mrs. H. McDonald and M. Robarge.

The Scouts go to camp Monday to spend a week with Mr. G. Raboud and H. Vague.

The Sturgeon service station was broken into again on Saturday evening.

Mr. Carl Sandbo of La Glace, Alta., spent the week-end with his niece Mrs. H. E. Vague. Tuesday morning, Mrs. Vague and Marilyn, Mr. Sandbo, Mrs. Hauptman, Mrs. Millang and M. Lindberg motored to Grande Prairie, Rossmith, and La Glace to spend the week.

St. Albert baseball team won from Sandy Lake 11-9.

Wilfred Perreault returned from the Jamboree of Scouts at Valley Forge, Pa., with many interesting stories and souvenirs.

Rene Morin returned from a visit of Boy Scouts at a ranch at Sundre, west of Olds, Alta.

Many Winners At Edmonton Exhibition

ST. ALBERT. — Mr. A. P. Gibbs of Aberlea Holsteins here, entered several Holsteins in the Edmonton exhibition with the outcome as follows:

Male 2 years—1st, Calside Designer.

Female, 4 years and over, dry—1st, Aberlea Ormsby Joy; 2nd, Aberlea Daisy Meechthide.

Female, 4 years and over, in milk—7th, Aberlea Little Fernie.

Females, 3 years old, milking or dry—2nd, Aberlea Steppin Joy; 4th, Aberlea Matador Fern.

Female, 2 years, dry—3rd, Marna Vrouka Pussie.

Female calf born between July 1 and Dec. 31, 1949—4th, Aberlea Lady Gwen.

Female calf born in 1950—3rd, Aberlea Designer Lily.

Morinville Council to Pledge Bonds as Security for Loan

Steps were taken at a recent council meeting of Morinville Municipal District to borrow money for municipal operations, by authorizing the reeve and secretary-treasurer to pledge as security Dominion of Canada bonds held by the council up to the sum of \$17,100.00.

Council was advised that it may be necessary to borrow in order to keep all accounts paid up. On motion of Councillor Walker it was agreed that should it be necessary for the Municipality to seek a loan, government bonds will be pledged as security.

Excerpts from the council meeting follow:

MORINVILLE NEWS BRIEFS

Morinville was a busy place all week with part of the population attending the daily services of the retreat preached by Rev. Orilla Meunier, O.M.I.

Every evening the church bell has been tolling in the late evening, calling all lambs to the fold.

Last week a large number of citizens took in the races and by the different expressions it is easy to figure out who won and who lost.

To the best of our knowledge one chap is \$345.00 the loser, while Mr. Raymond Rabec was lucky enough to bring in 5 daily doubles and was one of the happy ones to share in the \$157.00 Quinella on Saturday afternoon.

Mr. L. Sabourin had his picture in a daily newspaper, while visiting the farm implement display in the fair grounds.

Congratulations go to Miss L. Chailfoux on winning the award for super sales at an Edmonton store during the past year.

Among those reported on the sick list we note Mrs. Mich Peralt, Mrs. J. Pelletier, Mrs. Emilie Montpeller.

Mr. and Mrs. Ubald Chevalier are the proud parents of a baby girl named Denise.

Miss Louise Champagne is now on holidays.

Mrs. Camille Charest and family accompanied by Mrs. Jerry Desnogens have spent two weeks at Alberta Beach.

Last week Mr. Walter Hepler, Gerald Meunier and Darcy Martel attended camp at Edmonton Beach.

On Sunday a large number of people attended the baseball tournament at Alberta Beach.

Also a few parties went berry picking.

Miss Edna Caoutte celebrated her eleventh birthday on Sunday with a group of friends helping her with a birthday cake party.

Plans are being set for the annual corn roast at Sandy Lake under the sponsorship of the Morinville Lions Club.

A parochial picnic will be held on Sunday, August 13th. All proceeds to go to the parish hall fund.

Plans are also proceeding steadily for the homestead and field day to be held on Felix Meunier's farm. Definite date for the event will be published next week.

The tennis court is just about ready for play. Tapes are already down and everyone is getting ready to have the first game.

Morinville welcomed the Canadian Exploration Co. last week who are scheduled to make test holes south of town. They have settled and opened their office at the Lavigne place in the south end of town.

Congratulations this week go to the Kraushopf Bros. for the Toxaco Gas station that they opened this

Oil Exploration. Letters were read from three different oil exploration companies in regards to above work within the district.

On motion of Councillor Schares it was moved that these companies be advised that during wet weather they are requested to confine their exploration work on the gravelled roads and do abstain from using side roads; otherwise the Municipality will have no other alternative but to ban all operations during wet weather.

Weed Inspectors

It was moved by Councillor Perrott that the following be appointed and approved as Weed Inspectors for the current year: Walter Ellett, R.R. 2, Morinville, Alberta; Charles Green, Busby, Alberta; Arthur L. Stapleton, Morinville, Alberta; Chas. E. McConghy, Edmonton, Alberta; Julius Soltau, Picardville, Alberta.

Truck Purchase

A full discussion on the purchasing of a light truck for the service of the Public Works was discussed by the Council.

It was moved by Councillor Meunier and passed, that purchase of a G.M.C. truck from P. Mercier and Sons for the sum of \$2,160.00, being complete with box and a three-quarter ton capacity.

Aberlea Farmers' Union

Delegates of District Farmers' Union called on the Council in regards to grants for their union. Mr. M. Saffin acted as spokesman for the delegation which consisted of A. Soetaert, A. McLeod, M. Hittinger, J. Harold, J. L. Mitchell, O. Sinclair, A. Durocher, and A. Cameron. Collecting of fees from farmers was also discussed and a request of an annual grant beginning in 1951 at the rate of one-tenth of a mill on the assessed valuation was requested by the delegation. They were advised that their request would be given due consideration by the Council in regards to the above mentioned.

Youths' Organization

Rev. E. Briere called on the Council in regards to a central office for the CYO as well as for the Public Library. He advised the Council that this would only be temporary as should a Parish Hall be constructed that space would be available in the same for the said purpose. That Morinville has been chosen as the Central Office for the District and office space was required immediately

(Continued on Page 10)

Sturgeon Council Denies Redwater Hospital Request

Councillors of Sturgeon Municipal District recently turned down a request from the Village of Redwater to have council take part in a proposed Municipal Hospital area, on the grounds that taxation would be a burden to residents.

Area of Sturgeon district that would have been incorporated in the Municipal Hospital area was townships 57 and 58 in Range 22 and the gas half of townships 57 and 58 in Range 23.

Council said that this part of Sturgeon district contains about 52 quarter sections belonging to the Crown which are non-assessable, that the balance of the area does not have a very high assessable area, and "under the circumstances the tax to be levied would prove to be a burden to the residents."

Meeting was held in the Municipal office in Edmonton, with all councillors present.

Excerpts from the minutes follow:

Appeal of Garnet R. Huff relative to assessment on SE 29-53-24-4 was dismissed. He said that the land had been sold to Federal Government this spring and requested reduction on assessment on 152 acres at \$3,030.00 and the current taxes of \$211.26. He stated he only had leased 100 acres on this quarter. It was pointed out to Mr. Huff that under sect. 297 of the M.D. Act that all taxes levied under the provisions of the act shall be deemed due on the 1st of January in the year in which they are imposed and shall be payable at the office of the Secretary Treasurer. It was also pointed out that he still had the use of all buildings and could use the balance of the acreage for pasture if he so desired. Under the circumstances it was pointed out that he was the owner of the land on the 1st of January, 1950 and was liable for taxes.

Mr. Bernard Peter Dick entered into an agreement with the municipality in which he agreed to keep culvert in good condition and repair to the culvert supplied by the Municipal on NW 54-24-4.

Request from Northwestern Utilities Ltd. for a partial caveat effecting 3.97 acres of land purchased from Mr. Clarke was agreed to with the provision that Northwestern Utilities Ltd. pay the cost of all expenses incurred for the preparation and registration of same.

Zoning By Law no. 435 was given first and second reading.

Petitions

A motion was presented requesting Provincial Government to take over as Provincial Highway from junction of Ft. Trail and Victoria Trail, all that portion of the Victoria Trail leading to Redwater.

Gas Line

Application of extension of gas pipelines by the North Western Utilities Ltd. from 50 street east to Milners, continuation of Pipeline from 50th street and 137 Avenue N.E. on E half sect. 26-53-24-4 and Pt. NE. 26-53-24-4 and 35-53-24-4 was granted by council.

It was learned that rubbish dumped on road allowance north of the City by City Resident was now removed by the party dumping same.

Application to operate a slaughter house from Hampson Farm was granted and after inspection was made by the Municipal Sanitary Engineer.

Date set to hear complaints on annual assessment is Tuesday, August 22, 1950 at 9:30 a.m. in Municipal Office, Edmonton, it was announced.

Permit was granted to M. E. Gillis to make certain alterations to his store on part S.E. 36-53-24-4.

License was recommended to Mr. Hart to operate Veterans Garage, Bon Accord.

Permission was granted to Joe Andruel w to close division S.W. 17-58-22-4 providing gate is left in fence, in case any time future diversion should be used.

Council recommended that the Mothers Allowance be granted to Mrs. Olga Ann Myroon of Redwater and Mrs. Mary Oleksy of Legal.

Increase of \$5 granted to Mrs. E. M. Pederson of Mannville.

Consent was granted to Mr. P. Kilarski to Bon Accord to sell twine on his farm.

N.E. 28-58-24-4 was leased to Mr. M. G. Hill, R.R. 2, Legal, for one year for pasture purposes.

It was recommended to Dept. of Public Works that lease be granted to the Black Beauty Coal Co. for that portion on road allowance between the road diversions south of S.E. 6-55-24-4.

Two petitions were received regarding roads in 57-23-4 and read to Council. One of these petitions was dealt with by the Council when a delegation was received on 11th May, 1950. Regarding the other petition relating to commercial trucks speeding on gravelled roads it was said that it was not within the jurisdiction of the Council. The secretary was instructed to file same for the time being.

Council approved application of Imperial Oil Ltd. to erect warehouse and underground storage tanks at Bon Accord.

Hospital Act

The Secretary reported that recent amendments to the Hospital Act now enabled the Council to enter into contracts with duly approved hospitals for the care of ratepayers at \$1 per day rate to be paid by the patient plus medicines etc., the Municipality to pay \$2.25 per day and the Provincial Government. \$2.25 per day. In order to raise the \$2.25 per day, the Municipality was empowered to charge same by way of a hospital tax levy. An order in council in the Gazette dated 15 July amended the Municipal Districts Act to conform with the amended Hospital Act, so that now all ratepayers are entitled to the \$1 rate whether resident in the Municipality or not. Also the Municipality will be enabled to charge a minimum tax, Non-ratepayers resident in the Municipality can enter into the contract with the Municipality whereby they come under the \$1 per day rate upon payment in advance of not less than the minimum tax. The hospital levy will be levied on real property only, that is to say, on lands and improvements. Personal property would not be subject to a hospital tax. Through this amendment providing for a minimum tax, it will mean that the holders of lots and small acreages will have to pay the minimum tax and consequently this will reduce the hospital tax on the larger holders of lands. At the ratepayers meeting held in February at Gibbons, the Hospitalization scheme was discussed at great length and at that time it was estimated it

would mean a hospital levy of 3 and a half mills, but under the amendment to the act with a minimum tax set by the Council, it is possible that the mill rate would not exceed more than 2 mills, always depending upon the minimum rate set by the Council. If the City Hospitals and Immaculate Hospital, Westlock were prepared to enter into an agreement with this Municipality, and the Council of this Municipality was also prepared to enter into such agreement, then all ratepayers of this Municipality would get a general ward rate of \$1 per day and that also mean the ratepayer, his spouse and dependent family.

Town Planning

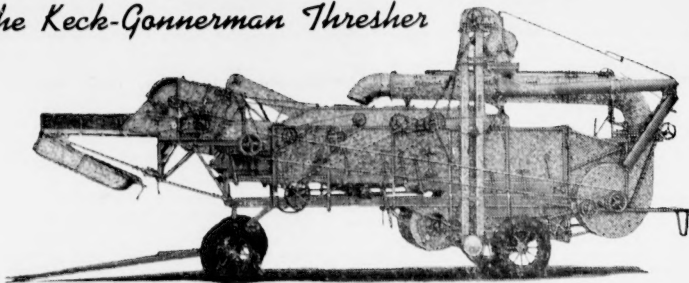

The Secretary reported that organization meeting of the above was held on Monday, July 10, and in the absence of the Reeve, the Secretary - Treasurer attended the meeting. This Commission was now in operation with Mr. Holloway being appointed Chairman.

Accounts and Pay Sheets as listed by the Secretary were paid. listed by the Secretary was ordered paid.

Since 1830, the number of magazines and newspapers in the United States has increased almost 25 times, while the population has increased only six times.

MORE SEPARATING CAPACITY

Than Any Other Thresher on the Market
the Keck-Gonnerman Thresher

... for 75 years the Farmer's Dependable Friend!

Almost four decades of experience in building dependable equipment for farmers has been put into the construction of the new Keck-Gonnerman Thresher... with the result that this thresher has exclusive construction features which are readily appreciated by the experienced farmer.

Study These Exclusive Advantages:

- 12 foot feeder carriers that are adjustable to any desired height from 36" to 74" merely by turning an adjusting crank.
- Feeder governed by fly-ball speed governor and volume control governor.
- All necessary adjustments for good threshing can be made while machine is in operation.
- Furnished with 12 bar cylinders on 28x48 and smaller machines and 15 bar cylinders on 28x50 and larger machines.
- Cylinder and blower shaft mounted on double row, self-aligning ball bearings.
- Equipped with 2 beaters for more efficient operation.
- Adjustable traveling rake chain back of cylinder elevates straw over separating gate and helps to distribute straw evenly onto racks. The rake chain added to the large concave and grate area gives the Keck-Gonnerman thresher the largest separating area of any machine on the market.
- Straw racks are divided and are evenly balanced, practically eliminating vibration of the machine.
- Six rows of steel lifting fingers operate up and down 215 times per minute while the rack moves back and forth at the same speed. The fingers toss the straw upward, tear it apart, and shake out any remaining grain.
- Heavily constructed channel and angle-iron frame put together with hot rivets. Frame will remain rigid after years of use.
- Blower shaft equipped with bull horns placed in position to auger and force a steady stream of straw into the blower. Practically impossible to choke blower.
- Full width door in rear permits sieves to be changed with minimum of time and effort.
- Heavy galvanized sheet-steel construction. Water- and weather-tight decks.
- The Kay-Gee weigher elevator is of belt and bucket construction.

Alberta Public Opinion Backs Ottawa In Korean Crisis

By RAYMOND ARGYLE

With one hundred million dollars slated for defence, and the dispatch of Canadian ships and planes to the Korean war theater, Canada's national government has taken unprecedented steps to meet the international crisis.

Throwing its weight behind the United Nations decision to stop the Korean aggression, Ottawa's action is meeting with general approval throughout the country.

Public opinion in Alberta is as solidly behind the government's action as in other parts of the country.

Ceilings have been lifted on the strength of the military forces, and a call has gone out to enlist in all three branches of the service.

The \$100,000,000 injection into the defence economy, which will consequently step up industrial production and reduce unemployment will bring 1950's defence budget to about \$525,000,000.

The \$10, 000, 000, 000 Truman has asked Congress for will in addition be partly spent in Canada, through the joint military program shared by Canada and the U.S.

On a population basis, the Ca-

nadian fund for new defence requirements is slightly in excess of America's per capita basis.

So far, three Canadian destroyers and the RCAF's number 426 Transport Squadron (an eastern group) are the only forces from this country that have been dispatched to Asia.

No ground forces will be sent, "at this stage" as they are needed to maintain defensive bases in Canada.

Present strength of the Canadian services is about 47,000 men, and the call has gone out for an additional 8,000 volunteers for the regular forces.

Ottawa wants men between the ages of 17 and 29 for active service to commission more fighting ships in the navy, to increase the strength of the armored corps and the infantry, and to provide additional air crew and ground crew in the RCAF.

Volunteers are also required for the reserve forces, to increase the strength of all reserve units of the three services and to attain active force standards of proficiency through intensive spare-time training.

As outlined in this newspaper last week, Ottawa hopes to build up a nation-wide corps of citizen soldiers for any emergency, and the reserve forces are the natural vehicle for this project.

On the financial front, experts are telling the public to get ready for a boost in taxes next year, and if for possible rationing if—and only if—the war threat grows worse and isolated instances of hoarding increase.

It is hinted that the government's plan for increased taxation—should such a step be necessary—is simply a "pay - as - you-go." This is favored rather than

a war loan, which would mean an expansion of the national debt, now totalling about \$11 billions.

Crucial international developments of the past few weeks have brought the world closer to the brink of actual conflict than at any time since the last war.

Western governments are hoping that their whole-hearted support of the United Nations will show that there exists a strong international body ready to put teeth into its pleas for peace.

S. A. Buchanan Heads Newspaper Group

Stanley A. Buchanan, of Lethbridge, circulation manager of the Lethbridge "Herald", was elected president of the Pacific Northwest International Circulation Managers' Association as the executives ended their 27th annual convention recently in Boise, Idaho. Directors include V. G. Hillman of Vancouver.

Tacoma, Wash., was selected as the site for the 1951 convention. The association includes members from Oregon, Washington, Montana, Idaho and Utah and the three Canadian provinces of British Columbia, Alberta and Saskatchewan.

Measles is an infectious disease and the victim's resistance to other more serious infections such as pneumonia, bronchitis, and infections of the middle ear.

Alberta Crop Prospects Improve

Recent rains have improved Alberta's grain outlook. Grain of this height at this time of the year is rare indeed. This picture was snapped on a southern Alberta farm where irrigation schemes added to ideal weather to produce an early crop.

Oil Boom Changes Face Of Small Alberta Town

What happens to an isolated community when an oil boom sweeps the country? Change and development of Redwater, paralleling the growth of the Alberta oil industry, is an outstanding example of what oil can do to a little town.

Two years ago it was a forgotten town on an all but forgotten rail line. When the first well was spudded in October, 1948, oil workers poured in, and shacks and huts of every variety sprung up amidst the swollen community.

As the search broadened out, permanent buildings began to replace the shacks. Modern concrete office and homes began to go up, a village council was formed, along with a Board of Trade and a Women's Institute. Today there's two theaters, a newspaper, the Redwater Review, a fine big hotel, and countless new stores and buildings.

And next week Redwater is celebrating the commemoration of the first oil discovery, the town is staging a gala two day festival, featuring the crowning of a queen and a \$550 baseball tournament.

The building boom has resulted in such erections as the big new food locker plant, a modern steel building for an oil supply company, a \$40,000 high school, and dozens of homes.

Concrete sidewalks are also being installed in the oil town, with cement now being poured along the town's main street.

With nearly 600 oil wells already producing in the region, some think that the boom may not last, as it's estimated there's only resources for another 200 wells.

Although already some of the drilling crews are moving away, Redwater isn't likely to wither away like Turner Valley towns.

There's enough oil under Redwater to keep 800 wells producing for years and it looks as if the town is going to settle down to a comfortable rate of growth as a small industrial city.

Greatest Canadian

Regardless of how individual Canadians rated Rt. Hon. William Lyon Mackenzie King during his life time, the history books will for years to come, accord him the title, Greatest Canadian.

The former prime minister was great because of his personal qualities. A student of public affairs, he was from the very start an ardent student of sociology and worked during his lifetime to better the social conditions of his fellow Canadians. Greater advance in social reform was made during his participation in the public life of Canada than in all other periods combined.

Mr. King proved his greatness in his ability to hold together the Canadian people, scattered over thousands of miles, and made up of diverse racial origins and religious beliefs. No other nation on earth is so scattered geographically, or gathered from so many different parts of the world, yet so united in aims and purposes today.

The man who held the prime ministership longer than any other man was great, too, because of his successful political career. A Liberal through and through, he preached and practised the gospel of Liberalism throughout his lifetime, without lapsing into reactionary measures so common today among political leaders.

A practical leader, this Greatest Canadian was a man of high ideals. He was a member of the Presbyterian Church, and on at least one public occasion reminded his listeners that he was a "continuing" Presbyterian. Yet he participated freely with other religious groups in their conventions and celebrations, when it was possible to accept their invitations, and as in many other ways proved his tolerance and understanding and respect for the beliefs and opinions of others.

Idealistic, he returned to French Canada the mantle of leadership which he had received from Sir Wilfrid Laurier, when he laid it down in November, 1948, by wisely choosing Rt. Hon. Louis St. Laurent.

He served Canada well. He was a great Canadian. We are certain that, of all the tributes being paid to him, he would hold none other tribute so dear.

The Rains Came

Not too soon, perhaps, and maybe just a little late to do the most good, but just the same we're glad that "the rains came".

Here in Alberta we have just about every type of topography from flat plains, to rolling foothills to mountain majesty and back to rugged bush land and forests. Wherever we live in the favored province, we need rain, at the right time each year.

Perhaps if government could control rainfall it would be a good thing. All we would have to do to get a "million dollar downpour" would be to put the pressure on our hard-pressed M.L.A. Then we could stand back and grumble that the rain storm should have come at night instead of during the day. We could complain that it rained too hard or not enough. The government spoiled the picnic or stamped.

Fortunately for all politicians, God Himself holds the reins in His hands, to release as He sees fit. We can be thankful that not often has the rain blessing been entirely withheld when we needed it most. And we did nothing to get them.

We could help things a bit, though, with irrigation. The snows fall on the mountain tops from September to June and then are melted and rush down from the Rockies to the seas. By taking this otherwise wasted water and spreading it among crops and gardens, the Alberta farmer can grow bigger and better crops, with less rainfall.

At best, irrigation is not a perfect substitute for rain. But like insurance it's a good thing to have when you need it.

Note and Comment

The men and women who don't appreciate baby talk never had one of their own.

Summer never really comes until we've dipped our winter-weary feet into a refreshing country brook.

Ask the Man Who Owns One

By T. W. PUE

One of the most famous phrases coined in the advertising world had something to do with diamond-studded millionaires driving around in the American version of Rolls-Royce with a look of smug satisfaction on their well-fed faces.

The Packard Motor Car Company has sold more Packards since 1902 by saying "Ask the man who owns one." Nevertheless the Ford Motor Company which sold flivvers for as little as \$395.00 a piece made more money than Packard ever banked with \$10,000.00 automobiles.

Henry Ford was a genius in his own rights, by acting on a very simple principle: the idea that the people of the world want cheap, dependable transportation when they buy an automobile. But Henry Ford is dead and his successors in the Ford and other Canadian and U.S. companies have largely forgotten the early principles which made their industry great.

T. W. Pue

They are still offering for sale Canadian automobiles that, in sheer excess weight and luxury outclassed the limousine you used to ask the man who owns one (whatever it was you asked him).

The sooner Canadian manufacturers get back to a low-priced, four cylinder car, selling for about \$1,200.00, the sooner Canadian people will stop buying other cars. We don't want any embargoes on shipment of low-priced autos from Britain.

But I seriously doubt if our Canadian firms will wake up in time. They are still likely to sleep down in Windsor and Detroit by the greatest demand for new automobile units of all time. Their arguments go like this: Why make small units for \$1,200.00 when we can sell all we can make at \$2,400.00?

Meanwhile, however, Austin and Morris cars are capturing the six-cylinder market with four-cylinders and making a future four-cylinder car market for years to come.

It's a Matter of Habit

The things we humans do, we do mostly because of habit. We keep on doing the same old things in the same old way, day after day, just because we've used to doing those things.

We don't usually change habits until we're forced into it. Consequently it took a war, an automobile shortage and sterling devaluation to get most of us to even consider driving a small British car. But now that we're FORCED into the habit of driving small cars, something just as drastic will be required to force us out of the habit.

Unable to get a new Canadian car, although our name was on dealers' lists in Edmonton since 1947, we bought a new Morris Minor from Mill Creek Motors whose headquarters is in South Edmonton. Right off the bat we saved \$800.00 on the purchase price of our new car. And no one told us we had to buy a lot of useless accessories to get possession. We didn't have to wait three years. It took two days to select the car we wanted and take delivery of it.

It seats four full-grown persons and baggage comfortably. We get upwards of 45 miles to the gallon and actually drove 200 miles for \$1.93 in gas.

Instead of paying \$6.00 to fill the tank it costs us \$2.10 and with that we can go just as far.

Alberta license fee for our 1946 Hudson is \$28.00. The Morris Minor costs \$10.00.

Oil consumption is negligible but when we change oil it takes \$1.25 instead of \$2.50.

The Morris Minor rides as comfortably as any other car I've driven and cruises easily at 55 miles per hour.

The battery is as big as the motor, which means we have plenty of electric power on tap at all times to start in any weather.

Just figure out, as I have done, the savings and advantages of driving a small car and make your own comparisons. If you can overcome your old habit of driving a limousine when all you need is a car you too will probably wonder when Canadian auto manufacturers will announce their new four-cylinder "minor" model.

Scriptural Meditations

By Ainsley Blair

Through nature and revelation, through His Providence, and by the influence of His Spirit, God speaks to us. But these are not enough; we need also to pour out our heart to Him. In order to have spiritual life and energy, we must have actual intercourse with our Heavenly Father.

Our minds may be drawn out toward Him; we may meditate upon His works, His mercies, His blessings; but this is not, in the fullest sense, communion with Him. In order to commune with God, we must have something to say to Him concerning our actual life.

Point of No Return

COMMENT FROM THE PRESS

Oil Monies For Oil Roads

From Edmonton Journal

Complaints about travelling conditions following recent rains indicate that improvement work is needed on some of the roads in Edmonton oilfield areas. For the sake of both oil operations and tourist travel, the necessary highways and roads in these areas should be kept in good condition, and the provincial government might well devote to this end some of its treasury returns from the sale of oil rights.

In just over two and a half years these returns have reached the enormous sum of more than \$47,000,000. Slightly more than half of this amount has been received during the first half of this year. More than \$41,000,000 of it has come from Redwater auction of crown rights, and approximately \$2, 630, 000 from Woodford township sales.

It would be eminently fair to allocate part of this money to needed improvement and maintenance of oilfield highways and roads, especially since some roads in the Redwater area are reported to give particular cause for complaint. It would seem only just, too, to assist the municipalities concerned, in this part of their

road work, for traffic on their main roads, at any rate, is abnormally heavy and it is two provinces—wide industries, oil and tourist travel, that are responsible for the extra load.

Probably a moderate amount of additional work would bring the roads up to scratch. Moreover, maintenance on some of them—those leading into specific areas that are bound to be drilled out in due course and left to produce through pipelines—would not have to be continued indefinitely. Thus the required sums would be relatively small.

Safety In Flying

From Financial Post

Grant W. G. McConachie, president, Canadian Pacific Airlines, used an arresting illustration to demonstrate flying passenger safety records in an address to the Canadian Life Insurance Officers Association. He said that if a baby were put into a plane at birth and were flown continuously at 200 miles per hour, it would be 57 years old before it experienced its first crack - up. He added that a man could stand 200 degrees temperature for 33 minutes and 240 degrees for 23 minutes—provided he wore long underwear. We'd imagine, though that his breathing would be in short pants.

Letters to the Editor

Waps Mail Delivered

Dear Sir—Surely the Government can figure out a way to correct the post office deficit without taking it out of us farmers. We get mail only twice a week, and for that reason we get your paper two days late. Why don't our government members practice economy themselves? If all the Parliament would stop franking privileges and pay for the tons of mail they send free, what a difference that would make!

Legal MRS. C. S.

OK's County System

Dear Sir—I'm mad. This is a wonderful province and I'm fed up with the petty bells people write about the county system and other legislation. We all have different viewpoints, and differences. But we have a right to talk up when something is wrong,

so why not wait until we really have something to complain about? If any of you don't like the way Manning is running the Province, go get elected yourselves.

Killam SOCIAL CREDITOR

Red Cross

Dear Sir—I am taking the liberty of sending you my personal thanks for the wonderful co-operation you gave the Red Cross in your Crossfield Chronicle prior to and during the Cavalcade to Calgary.

I have read every article which you printed and I can assure that the success of the tour was due in no small way to the articles.

Please accept the warmest thanks of this Division for your excellent support in this project.

Calgary G. A. SHAVE, Red Cross

SUNDAY SCHOOL LESSON:

Samuel Ranked as One Of Bible's Greatest Men

Next to Moses, Samuel is considered the greatest leader of Israel.

Coming upon the scene when religious and national life was at a low ebb, his influence and deeds laid the solid foundations upon which the early kings of the monarchy accomplished the greatest expanse and glory of their people's history.

Samuel was a wonderful character, a man willing to serve, and a righteous servant both of Jehovah and his people.

He was the prayer-child of his mother, Hannah. From birth he had been dedicated to the divine service.

Early in boyhood he was presented to religious duty, left in charge of the prophet Eli, who trained him. Performing the daily tasks connected with the temple and the care of the aging priest, Samuel was kept busy, but at the age of twelve Jehovah directly touched his own heart making him a mouthpiece and using him for serious condemnation.

There was much in Eli's life which was pathetic. He seems to have been in many ways a good, kind old man, but he failed to properly train his sons, Hophni and Phineas. Eli served faithfully as a judge, but his sons placed in the same high office, were faithless and corrupt. For this dereliction, Eli and his household were condemned but the humble submission of the old priest to the punishment of God raises considerable doubt at to his ultimate harm.

As Samuel grew into manhood, the Israelites met with severe disaster. The Philistines were aggressive and defeated them. Thinking to help themselves, the leaders decreed that the sacred ark should be brought into the next battle, hoping its presence would be as effective as at Jericho with Joshua.

But, all in vain, Jehovah demonstrated again that it was righteousness in human hearts, not formal worship, that he expected. The Philistines captured the ark, killed Eli's two sons, and for twenty years oppressed the Israelites. Eli, after forty years of service, died when the news of the great defeat reached him.

Samuel's influence grew during

the occupation and ascendancy of the Philistines. At Ramah he set up an altar and worshipped the true God, not Baal or Astart, fostered by the invaders and accepted by many of the Jews. Finally, He called the Israelites to gather at Mizpah, having in the meantime succeeded in bringing many of them back to Jehovah and his worship. The enemy gathered and a great battle took place. Victory crowned the efforts of the children of Israel, and with it Samuel's power and authority became nationally recognized.

As prophet and judge, Samuel ruled over the people of Israel until late in life. He established the circuit, going from Ramah to Bethel, Gilgal, and Mizpah to hold court and to judge for his fellow prophets, in order that the young men might be taught the true faith and proper practices.

Throughout his active life Samuel was a pillar of right-living, honesty and piety, winning the veneration and respect of the people throughout the land. Strange to say, he made the same mistake in life as Eli—he failed in the rearing of his sons.

Finally, the Israelites complained, not of Samuel but of his sons. They were greedy and corrupt. The people demanded a king like other nations, and came to Samuel with the demands. Following the advice and dictates of Jehovah, Samuel granted the request, seeking the best possible man for the place. Before doing so, Samuel warned the Israelites of the

many dangers and hardships of monarchy, an analysis of the faults of this form of government, which remains true unto this generation and respect of the real influence over events, however, for the people respected his righteously and honest character.

In finally presenting the new king to the Israelites, Samuel made a noteworthy farewell address, fit to rank with the greatest similar communications. Recalling his lifetime in their midst, he challenged any to show that he falsely acted or wrongfully took their goods. As a public official Samuel recognized his public trust, he had not accepted graft or renege. In any government self-seeking officials are dangerous, when they use their positions selfishly. We need more recognition of the obligation of public office and the increased responsibility to the trust it represents.

New Lions President
Named At Convention

CHICAGO. — Herbert C. Petry, Jr., Carizzo Springs, Texas, is the new president of the International Association of Lions Clubs (Lions International). He was elected by unanimous vote at the 33rd annual convention of the association held in Chicago last week. Petry succeeds Walter C. Fisher, Queens-ton, Ont., Canada.

HERBERT PETRY

The convention concluded one of the most successful years in the history of Lions International, according to the report made by Melvin Jones, Chicago, Illinois, Secretary-General and founder of the Association. He reported the addition of 806 new Lions Clubs and 21,415 men to the roster of the association during the 12-months period ended June 30, 1950, for a total of 8,055 clubs and 402,841 members.

He stated also that during the fiscal year Lions Clubs were established in two additional countries, England and Denmark. Lions International, he added, is the largest, strongest and most active service club organization in the world, with Lions Clubs in 28 countries on five continents.

Letter to Louisa

Old Enough to Work
But Not to Enjoy Life

Dear Louisa—I am going on eighteen years of age and my parents treat me like a child, although I have two sisters younger than I am.

I work Monday, Tuesday, Wednesday and Thursday nights after school and all day Saturday and yet when I ask to go out on a Saturday or Sunday night, they say that I may not go and that I am always anyway.

Sure I am always anyway but I am working. I have no pleasure at all and my life is very miserable. They are always complaining about the money I spend even though I spend only \$1.00 a week for ice cream and other refreshments.

They refuse to let me go to dances or to movies as that costs too much and still I may not go on a date anytime and cannot travel with my girl friends. When I do go out, I have to be in by 9 or 9:30. I have my driver's license, but they never let me drive the car, even when they go alone.

All the other girls, three and four years younger than I am have boy friends and go out on dates, but I cannot date or have a boy friend and yet they are complaining all the time. I feel like I am not wanted. What shall I do?

WONDERING

Answer:

Your parents are certainly acting in a ridiculous manner. Surely if you are old enough to be working out at night, you should be allowed a good part of what you make and some liberty to see your friends, whether they be boys or girls.

Some parents have the idea that they can protect a girl and keep her home by not allowing her to go with friends but this is one of the easiest ways of making her run away from home.

No girl is going to put up with such treatment long. As soon as she finishes school, she will get a job and move to some place where she can do as she pleases.

How much better it would be for both parents and daughter

if the parents would try to make her life happier! Allow her money for the movies twice a week and let her have dates with nice boys. Certainly, they should not object desirable companions.

Wake up parents before it is too late! Try to make home pleasant for your children, so they will be satisfied to stay with you even when they grow older.

Alberta Forestry Tour Attracts Large Audiences

Annual forest conservation tour conducted by the Canadian Forestry Association in co-operation with the Alberta Forest Service is now visiting communities in the forested areas of the province. The meetings are attracting the largest audiences ever enjoyed on these tours.

Travelling by truck, a gift of General Motors of Canada, settlements and forest communities all across middle and northern Alberta are on the itinerary. To some points the forestry program brings to the people the only movies shown in the area during the year. With the splendid co-operation of the press and radio, local residents are attending for some miles around, with record numbers present. Often entire families walk in to the meeting, coming from 2 to 6 miles to attend.

Sound films show the value of Alberta's timber resources, how they provide employment, essential products, and in making a home for wild life, and a background for the tourist industry. The forest plays part in regulating stream flow is stressed, as the future of irrigation in the province depends on a constant supply of water, and green forests are essential in providing adequate and permanent watersheds.

Association speakers stress the need for maintaining a balance of forests, on the weaker soils, when opening up northern areas to farm settlement. They emphasize that to destroy all forest re-

sources will place a heavy handicap on the future prosperity of agriculture.

Meetings will be held at Grassland, Sept. 28; Plamondon, Sept. 29; Wandering River, Sept. 30; Lac la Biche, Oct. 2; and McMurray and Waterways, Oct. 19.

The narrow roads where two cars could barely pass without touching each other are being replaced by splendid wide highways on which six or eight cars can collide at once.

More Power To You!

SAYS EVA CRUMMY

FAMILY FINANCES: According to a recent survey on family expenditure Mom may be losing her grip on the family purse strings!

The old axiom that women spend 85 per cent of the family budget just doesn't seem to be true any longer. Actually Mom spends 55 per cent of the amount, while Dad and the children spend the other 45 per cent. According to the statistics obtained, 85 per cent of the men help with the grocery shopping to some extent at least, while 20 per cent are responsible for all of it. Another interesting fact brought out, is that men buy one-third of the electrical appliances.

But maybe Mamma wants it that way. It takes one chore off her hands. It is true, too, that a meal can be prepared in the time it takes to make a trip to the store, providing of course that she doesn't let her cupboard get too much like Mother Hubbard's! And there isn't any reason why it should if we keep a list handy to let the rest of the family know just what is needed around the house.

Perhaps one reason more men are shopping is because of the shorter work week. Another one that the wily little home-maker knows, is that it gives the man of the house a better insight into the actual cost of those items which make that cost-of-living index soar. Would that they could do more about it! In any case it appears that most women welcome less grip on the grocery money when they obtain more understanding of where the food dollar goes.

Even if the food costs are high, they are still cheaper than doctor's and hospital bills. Good food goes a long way towards providing better health. We build strong bodies by means of what we put into them, just like a well built house needs good materials, so it won't warp or crack. We should be thankful, too, that we CAN get so many things when others in different parts of the world are unable to do so.

While we are handing out bouquets to the men for doing the shopping, it is not amiss to remind ourselves that we have a lot for which to thank our men folk! Do we realize that we would still be using the elbow-grease to get our clothes clean if it were not for them? And they have invented ALL of the appliances which we find so helpful in our daily routine. And they are not content with that. They keep on improving them, in order to make them suit us better. What a boon refrigeration, and pasteurization is to the daily housewife. Men are great for doing things the easy way! With their help, more and more of us are availing ourselves of an open-minded approach to the job in hand.

SHORT STORY:

A Dreamer's Holiday

It seemed hours since I had left the dreary outpost. The wind howled and raged, the dogs lagged, and I felt a drowsiness creeping over me.

"Mush Major, mush," I yelled into the blinding storm. I followed closely behind the provision-laden sled which was drawn by six of the forces' fastest huskies. My skis dragged heavily over the snow, leaving tracks which were immediately eaten up by the blinding storm.

A weight at my right hip reminded me that I had a job to do. I tried to think of other things as I plunged on and on into an endless eternity. Suddenly the dogs stopped. One of them howled—a piercing howl which set my nerves tingling. Without warning a pain rined through my arm. Pistol shots cracked in the night. I grasped my own gun and fired blindly

Pilot calling rear navigator—into the storm. Then I lunged forward into endless tons of snow. Down-down . . . down I went. Suddenly the ground came rushing up at a terrific rate. I hunched forward in the cockpit, grasped the rudder, shoved over the control stick and nosed the plane skyward. I yelled madly at the intercom, "Pilot calling rear navigator;

SOUND FROM this fellow is no kitten's "moo". He's a sea elephant, weighing thousands of pounds, one of the ocean's biggest beasts.

changing altitude—right engine dead — changing — The plane swerved crazily as the two-way boomed, "Rear Gunner to Pilot—left arm useless, shell supply low, —ooh they got me the da—"

"Order Benson to close the bomb traps," I yelled to my copilot as I wired a "Mission Completed" to the air base. "Pilot calling all crew members—engines failing—bail out at once—assist rear gunner; Bail out immediately—!" The plane swayed and my alarm increased as the indicator slid over to 2,000 then 500 and then down, down, down at a sickening speed.

When I regained consciousness everything was black. Dazedly I shoved the blankets off my head and crawled back into bed.

September Wedding Is Announced

Mr. and Mrs. A. Holowack this week announced the engagement of their daughter, Marie Margaret, to Raymond Argyle, News Editor of the South Edmonton Sun. The wedding will take place Saturday, Sept. 2, at 4:30 p.m. in Metropolitan church.

Trials Of An Editor

Getting out this paper is no picnic.

If we don't print jokes, people say we are too serious. If we stick close to the office all day, we ought to be around hunting material.

If we go out and try to hustle, we ought to be on the job in the office.

If we don't print contributions, we don't appreciate genius;

And if we do print them, the paper is filled with junk!

If we edit the other fellow's write-up, we're to critical;

If we don't, we're asleep.

If we clip things from other papers, we're too lazy to write them ourselves;

If we don't, we are stuck on our own stuff.

Now, like as not, some guy will say we swiped this from some magazine.

We did!

Morinville News Briefs

MORINVILLE—Hello Dear Readers, after two weeks of rest, yours truly is happy to bring you a resume of local news. We wish to thank Mr. Raymond Argyle for carrying on as best he could during our absence with the edition of the Morinville Journal, also we wish to thank all of you who so kindly inquired about us during our stay in the hospital and for all your many good wishes. A friend in need is a friend indeed, so to one and all "Thank You".

Rain at long last has saved the district from what looked as the worst crop failure in these parts for a decade. Although it is estimated by the D.A. and others in the know that Morinville will yield about 40 or 50 per cent of a normal crop, conditions have been improved a great deal in the entire district.

Two well known and respected citizens have passed away in the death of Mr. John Middleton, veteran of the 1st World War, aged 55, and Mrs. Marie Comeau, aged 89 and old time pioneer in this parish. To the bereaved families, the citizens of the Morinville District offer their sincere sympathies.

Mr. Art Logan lost his home recently in a Sunday fire, when no one was at home. All the furnishings and clothes for the entire family were lost except the chest-drawer, the washing machine and sewing machine that were saved by neighbors after the fire was uncovered.

A baby son was born to Mr. and Mrs. John Saunders and was named Kenneth Michel.

Mrs. Edward Meunier was a recent patient in an Edmonton hospital. Mr. Clement Lavallee is now resting in hospital after an operation.

News from Mr. Louis McDonald is not very promising, he is a patient in Col. Mewburn.

Last Wednesday, a donkey baseball game sponsored by the Morinville Sports Association was a real success and it is hoped the tennis court now being conditioned and soon to be ready for use will also prove to be well patronized and supported.

There are rumors that Morinville may have a large auditorium or parish hall but the minimum of \$10,000 is required before permission is obtained from His Grace to begin building.

The Morinville Public Library is scheduled to open in the Morinville Municipal office.

A large number of boys and girls are taking advantage of the summer camp sponsored by the Catholic Youth Club, for one week holiday at Edmonton Beach.

REAL ESTATE

(Continued)

FOR SALE—No Crop Failures! We have several improved farms with buildings in the fertile district of Onoway where crops never fail. Priced from \$4,500 to \$6,900. Terms can be arranged. Phone or call or write J. F. Dedio, Onoway, Alta. P.J-29-A-5-12-19

FOR THAT HOME, farm or business you have been looking for get in touch with us immediately. We have listings to meet almost every need and purse. All properties listed are in one of the best and most prosperous farming districts in Alberta. Harold Grigg Agencies, Mayorthorpe, Alta. C-TF

WANTED MISC.

WANTED—All your old shoes to be rebuilt into handsome comfortable footwear to give you miles of carefree walking service. Send them to CORONA SHOE RENEW, 10756 Janssen Ave., Edmonton C-Jy-10-Lf

WANTED—Your Classified Ad in this paper! For want ads that really get results, write 10815 Whyte Ave., or phone 34863.

WILLIAM HOWSON, who became Edmonton's 12th traffic fatality of 1950 when his car crashed into a trolley bus at Jasper Ave. and 114 St., July 14. A South Edmonton resident, Mr. Howson's young wife was expecting a baby within a few days of the tragic accident.

The Krauskopf Bros. will soon be installing gasoline pumps at their shop on the highway. Their cement bases are ready and the boys are now busy doing other improvements necessary for the sale of gas.

O. C. Lavallee store front has undergone a big improvement, with the installation of large windows and a stucco job.

L. H. Tremblay's Garage is undergoing a thorough face wash with a good cleaning job on the outside of the large building.

This is holiday time and it is hard to keep track of everybody.

However we met Mr. Andre Brochu from St. Isidore, Comte de Dorchester P.Q. who is visiting the family of Mr. A. Brochu. Also Mr. Paul Trotter from Yellowknife and Madame Florida Labbe from B.C.

Mr. Larry Shea and family have taken the trail to B.C. where they will visit relatives of Mrs. Shea.

Mr. Lavigne has taken possession of his large house in the south end of town.

Jewel Meyer Wed To Norton Bruns

CLYDE—A pretty wedding was solemnized in the Barrhead Anglican church on July 19 at 2:30 p.m. when Jewel Meyer, only daughter of Mr. and Mrs. C. F. Meyer of Freedom, became the bride of Norton Bruns, son of Mr. and Mrs. F. Bruns of Freedom, Rev. D. V. A. Browne officiating.

Given in marriage by her father, the bride was charming in a gown of white satin with embroidered bodice and long embroidered veil. She carried a bouquet of roses.

The bridesmaids were two sisters of the groom, Laurel and Lily Bruns, dressed alike in pale pink and wore hats and shoes.

The groom's attendants were Alvin Meyer, brother of the bride, and H. Price.

Following the service, the reception was held at the home of Mr. and Mrs. Bruns, where 100 guests sat down to a banquet. The bride's table was centred with a three-tiered wedding cake appropriately decorated.

Following a honeymoon trip to Calgary and Banff for two weeks, the young couple will make their home on the groom's farm at Freedom.

Guests at the wedding were Donald Hobart of Clyde and Donald Donnelly.

Out-of-town guests included Mr. and Mrs. Charles Spackman and son Pat of Nestow, and Mr. and Mrs. Roger Donnelly and family of Clyde.

Morinville Council . . .

(continued from page 1)

in this regards. The matter was fully discussed by the Council as to office space available here.

On motion of Councillor Perrott it was decided that Council would lease basement office to this Youth Organization at the monthly rental of \$10.00 per month; the said rate to include lights; that they be held responsible for janitor services in the lower part of the M.D. building and that the lease state that the same may be terminated on 30 days notice in writing by the Council, should this office be required for the use of the local government.

Government or any branch thereof.

Edmonton Union of M.D.'s

Council were advised that the above mentioned union of Municipalities were to meet the Edmonton Hospital Board in regards to hospitalization of its residents under the \$1.00 per day rate, as per the new Government policies as set out by the Government at the last session of the Legislature and that the meeting would be held in the Board rooms of the Edmonton Hospital Board in the University of Alberta hospital on Monday, July 17, 1950 at 2:00 p.m. and representatives of this district were requested to be appointed to attend.

On motion of Councillor Meunier the Reeve and the Secretary-Treasurer of the Municipality were appointed to attend the M.D. of Morinville.

Richardson Road Machinery

H. Webb, representative for the above company called on the council and spoke on B. G. Speed Haul scrapers and advised that his company allowed two per cent discount on culverts for payment within 30 days of delivery; that the freight on culverts was paid to the destination and it would be in order to deduct the freight as paid by the M.D. on the Saskatoon shipm't. Grader tires were also discussed and letter dated May 28, 1950 was referred to in this regard.

It was moved by Councillor Perrott and carried that an order be placed through the above company for two tires for the Richardson Grader no. 14 providing that the company pays for the one only called upon to pay for the other; this would be a replacement for the tire damaged by the said grader shortly after the purchase of the said grader.

Kellough Construction Co.
Mr. Kellough of the above called

on the Council and spoke on graveling contracts. He advised the Council that his prices were 20c for loading, including the cost of the gravel; that crushed gravel was 65c per yard loaded in the trucks and the prices for hauling were 13c, 11c and 9c; that the charges on the longer hauls were 8c per yard; that the gravel would be stockpiled for 50c per yard from the crusher providing they were to move the same when required on the roads. He was asked to place tenders on a few of the proposed roads which the Council intended to gravel.

Morinville News

(Continued from Page 1)

week. Best of luck, Joe and Clarence.

An old land mark is fast disappearing behind the school as Mr. Tailleux's crowbar and hammer are prying into the remains of the old barn that stood with the old parish hall.

An Edmonton company is busy doing some improvements in the convent basement where new floors are being laid over the cement and wood coverings.

Mr. Raymond Tailleux is now clerking at Martel's since Mrs. Rose Martel has retired from active partnership in the business.

Mr. Maurice Montpellier was seen at C. C. Lovalee's store on the job as clerk during Mr. C. Lovalee's absence at the hospital. Another recent visitor at the hospital was Mr. Armond Riopel.

Mrs. Ann Sereda has retired from the Blue Bird Cafe. This place is now closed and for sale.

Dates to Remember:

August 7 - Civic holiday.
August - Picnic at Morinville.
August 27 - Sandy lake corn roast.

Rev. O. Meunier invites everyone to call in at 7:30 any evening at St. Jean Baptiste church during all of next week.

Livestock Station Not Yet Open

Contrary to an announcement in last week's issue of the St. Albert Gazette, the Livestock Buying Station on the St. Albert Trail one-half mile north of the city limits is not yet operating.

The Gazette regrets the premature publication of the advertisement as through an error on behalf of the advertising department, the ad appeared in advance of its scheduled publication date.

Yaremko-Demurak Nuptials Held July 20

CLYDE.—The Greek Orthodox Church in Edmonton was the scene of a pretty wedding on July 20 at 3:00 p.m. when Lena Demurak, second daughter of Mrs. J. Demurak and the late Mr. Demurak of Nestow, became the bride of Mike Yaremko, eldest son of Mr. and Mrs. Max Yaremko of Clyde.

The bride was beautiful in white satin floor length gown with lily-point sleeves and trimmed with sequins. She wore a trailing veil of white net.

Three bridesmaids were Demina

Demurak, sister of the bride, Evelyn Yaremko, sister of the groom, Ella Anderson, aunt of the bride, Lillian Gale, cousin of the bride. They were all dressed alike in pink gowns and pink veils to match.

The groom's attendants were Samuel Yaremko, brother of the groom, and Metro Magas of Clyde.

A reception was held at the groom's home followed by a dance in the evening. The bride's table

was centered with a three-layer wedding cake flanked by bouquets of roses.

UNWANTED HAIR

Permanently eradicated from any part of the body with Saca-Pelo, the remarkable discovery of the age. Saca-Pelo contains no drugs or chemicals and will kill the hair roots. Lor Beer Lab., 679 Granville, Vancouver, B.C.

2 NEW COMBINES FOR FASTER HARVESTING IN '50

MASSEY-HARRIS
Super 26 AND Super 27

SIX NEW FEATURES:

1. Balanced separation (see right),
2. Multiple speed drive (24 forward speeds),
3. Improved cylinder-and-beater design,
4. Longer, wider straw-walkers,
5. Extra large wheels,
6. Lighter and better distribution of weight.

THEY ADD UP TO THIS:

1. Faster harvesting . . . more acres per day,
2. Cleaner harvesting . . . more grain and better grain,
3. Easier harvesting . . . less strain on the operator.

BALANCED SEPARATION

Each unit is correctly geared to all other units. You can't overload . . . can't clog. Balanced separation regulates . . . controls the flow of materials . . . straw and grain . . . right through each and every step of combining. No stops . . . no waste. Faster . . . cleaner.

Early Orders
